## **MESSAGE FOR EASTER 2015**

*Dear Ones,*

*The UN and UNESCO organizations have proclaimed 2015 “The International Year of Light”.*

*When God pronounced the phrase “Let there be Light!” the universe began to show its beauty.*

*Light is the origin and supporter of everything that exists and without it, life itself would not be possible.*

*We know from the grace of the Lord that all forms of light, from the little flame of a candle to the magnificent sun, and from a tiny lamp to a lighthouse that can illuminate the night, everything originates from a more radiant and marvelous Light, with which God reveals himself in the cosmos: it is “the Light that illuminates every man”.*

*This admirable Light, dispensed in every age by the living Master, makes it possible for the spirit in exile to find the “narrow road” that leads back to the Lost Paradise.*

*We could make this Light our subject for next Easter, for which I wish all of you to achieve, like every day, your Resurrection in Spirit.*

*Yours affectionately,*

*Pier Franco Marcenaro*
